BOARD OF PUBLIC WORKS

Dear Ms. Bose,

I have lived in Calvert County for about 11 years, and I believe that Dominion's proposed expansion would help create a respectable tax base for our county, as well as make steps towards creating a self-sustaining revenue stream.

Our economy needs projects like this, ones that provide money for the county and jobs for its people. Seeing as how the environment and community will be cared for in Dominion's carefully laid out plan, I perceive no reason to delay this process any further. This county needs the benefits, and the costs have been minimized to the point of elimination. Please approve of this project quickly.

Thank you,

Alexander Lancaster
Prince Frederick, MD
